YOUNGSTOWN, OHIO

LOCAL NEWS ITEMS

Gathered in Town, County and
Neighborhood.

—Eden Grange at Lordstown is building a fine new hall.

—Read the numerous advertisements in today's Dispatch.

—Enos Bricker, 70 years old, died in Lisbon Sunday and was buried Tuesday.

—Grand has taken steps for the organization of a volunteer fire department.

—C. P. Rothwell, East Palestine attorney, is seriously ill with little hope of recovery.

—Ten new houses are being erected in Mineral Ridge; more than has been built there in 10 years.

—Henry Lodge of Leetonia was seriously injured by a bull last Saturday while the animal was being shown at the Carrollton fair.

—Columbiana county Odd Fellows have organized a union meeting and will be held each month with one of the lodges to promote the good of the order.

—The Erie freight depot in Niles was destroyed by fire Monday morning. A spark from a passing locomotive is supposed to have started the blaze.

—Warren's tax rate will be 1.5 mills, the limit, next year under the new valuation. This will yield the same revenue as under the old rate and valuation.

—Extensive improvements at the Cherry Valley furnace in Leetonia were completed Sunday and the furnace was blown in after a shut-down of several weeks.

—Either Salem or Warren would make most desirable locations for the proposed state normal school in this quarter of the state. Both cities have the educational sentiment and many advantages.

—Pickpockets worked on a M. V. electric car between Warren and Niles, last Saturday night, relieving one man of \$100, another of \$15 and another of \$6. Three suspects believed to be Cleveland "dips," were arrested at Youngstown.

—According to the record of the state registrar there are 32,051 automobiles in Ohio, or more than any other state in the union with the possible exception of New York. The total revenue to the state from licenses up to Oct. 1, was \$175,004.

—Mrs. Rebecca Leitch of Ohiotown and Austin Wilson of Youngstown left last week for southern California where they will spend the winter on an ostrich farm owned by C. P. Leitch, formerly of Ohiotown, but for many years a resident of California.

—This is the way they do it in Leetonia, according to the Reporter: Wednesday Marshal Boyle arrested Bob Nichols and Tom Fagan for being drunk and disorderly. On Thursday he arrested Dave Gibbons on the same charge. James Gallagher interfered in Gibbons' behalf and was also locked up. A fellow named Morris Wagel, of Salem, came into the mayor's office and commanded the release of his friends. He was added to the collection behind the bars.

—There are 32 prisoners in the Columbiana county jail at Lisbon.

—Trumbull county has 11,911 youth of school age, 5,125 being boys and 5,066 girls.

—Grand lodge of Ohio Masons will hold its annual meeting in Columbus next week, beginning Tuesday.

—At a sale of 22 Wayne county cows in Youngstown last week, auctioneer C. T. Agnew of Boardman reports an average of \$65 a head.

—Charles Pettit, aged 56, a line-man employed by the Bell Telephone Co. in Alliance, came in contact with a live wire last Friday and was electrocuted.

—Mrs. Harriet Taylor Upton of Warren has written a most interesting history of the Western Reserve. It is in three volumes and very comprehensive.

—The last remaining residence that marked the spot where the once proud village of New Chambersburg, Columbiana county, proudly stood was razed last week and the town is now only a memory.

—Henry Beck, a highly esteemed pioneer resident of Warren township and city, died last Sunday, aged 85 years. He is survived by his aged wife and eight children. Funeral services Tuesday afternoon were conducted by Rev. Mr. Long.

—Friends of Ira Marlatt, sent to the penitentiary for life 20 years ago for the murder of Barack Ashton at Signal, Columbiana county, are making an effort to secure his pardon. Marlatt was long known as the prison demon but is now a model prisoner and it is believed it would be an act of mercy and the right thing to give him his freedom.

—Leetonia Reporter: There is some talk of holding some kind of a celebration on Halloween in order to provide entertainment for the boys and girls and to turn their attention away from the destructive pranks indulged in during past years which has resulted in much property damaged or destroyed. Most other towns around have adopted the practice of holding carnivals or Mardi Gras celebrations and they are all very enthusiastic over the successful outcome. The matter is well worth consideration and with a little boosting could be made a success.

MAMMY'S PUMPKIN PIE.

If de ole man's out of humor
Does de baby fret and cry
Stop a minute wid your workin'
Give 'em some good pumpkin pie.

Is dere trouble 'mong de farm hands,
As they thrash de wheat and rye,
Invite 'em quick into de kitchen,
Stuff 'em full of pumpkin pie.

Is ole daddy cross and grouchy,
He'll get over it by and bye,
If you give him piece of mammy's
Golden delicious pumpkin pie.

Is you down upon your sick bed,
Sick enuff almos to die,
Notting will so quick revive you,
As a hunk of pumpkin pie.

If your lean and lank and lonesome,
An de worl seems cold and dry,
Listen honey trye a diet,
On de delicious pumpkin pie.

And I wonder oh I wonder,
When I lay me down to die,
Will de angels wait me over,
Where I gets my pumpkin pie.

—Sebring Times.

LOWREY WANTS RELEASE.

Chardon, O.—A stylishly dressed woman, sister of Charlie Lowrey, notorious bank robber, serving a term in the Ohio penitentiary for the robbery of the Smith, Forster & Co. bank in Chardon in April, 1901, came to Chardon seeking aid in procuring her brother's release. She gave her name as Miss Margaret Lowrey and said she lived in Chicago.

Lowrey has yet to serve three years. Miss Lowrey wants recommendations for the release of her brother.

"My brother is 34," she said. "He is in failing health. If he is not released from the penitentiary before his time expires he will never live to see the day he is a free man."

Asked as to what means of livelihood Lowrey would follow if his release was secured, she replied:

"I am in a position to support him. He can come to my home and I will care for him. Mrs. Lowrey died five years ago. Charley has one child, a daughter, aged 10, who is at present with me in Chicago. He has another sister in Indiana."

I have succeeded in getting letters of commendation from Charley's old schoolmates in Warren, our old home, I am going from Chardon to Warren to ask Judge Glimmer to help me get Charley out. Judge Glimmer sentenced him."

Lowrey was a member of the Blinkey Morgan gang which figured sensationally in the Ravenna fur robbery.

"That was his first wild experience," said Miss Lowrey. "After this robbery he resolved to turn over a new leaf. He bought a farm near Elyria, where he lived for several years. Eventually he became disheartened, because when people drove by they would point to the house and natives would tell visitors that this was where the notorious Charlie Lowrey lived. Time every time the newspapers had anything to say about Charley they would always wind up their articles with the fact that he was once a member of the famous Blinkey Morgan gang. He could stand these circumstances no longer, and returned to the old life."

Lowrey and other members of the gang in April, 1901, wrecked the safe of the Chardon bank after blinding night watchman N. C. Pomeroy and Dr. C. Hudson. He was sentenced to the Columbus penitentiary. He once escaped but was captured in Michigan.

The Chardon bank was robbed a short time after an attempt was made to burglarize the Canfield bank. Lowrey is supposed to know who the men were who visited Canfield and went away empty handed.

The Ohio Campaign.

It begins to become apparent that the campaign in Ohio this year is to be fought out in state issues. This line of conflict has been forced by Governor Harman, who, from the outset of his speaking campaign, has chosen to present to the voters of the state facts and figures pertaining solely to Ohio, to the exclusion of other topics regarded by him as irrelevant to the present contest. The republican candidate, Mr. Harding, as well as the other campaigners of his party, seems to have accepted the challenge of the Governor, and republican orators have set themselves the task of tearing down the structure upon which Mr. Harman has based his appeal to the voters for re-election.

Ohio campaigns have always been gingerly affairs, and the present one is no exception. Little or nothing is heard of insurgents or standpatners in the conflict, and as for the tariff, Congress might as well have left the matter untouched in so far as the Ohio campaign is concerned. Party dereliction is the shibboleth of both parties, and the speakers of both are busily engaged in showing that the other fellow is the grafter, thief and incompetent.

The question of irreconcilable differences between the two parties, the opposing forces that the voter must necessarily wonder which side is telling the truth.

It may be that the Governor has chosen wisely in forcing the campaign along these lines. Certainly it is bringing to light a lot of hitherto dark and well-guarded secrets regarding abuses of political power and questionable uses of the state's money.

The voter, for the first time in many years, is being treated to the rare sight of the removal of cobwebs and the brushing of dirt from the corners.

House cleaning, never pleasant, always brings strange and forgotten things to light, but in the end leaves them in a much more wholesome and sanitary condition. That is what the present campaign is doing for Ohio.

The contests in the congressional districts have thus far been obscured by the fight for the state offices. In Ohio as elsewhere throughout the country, is a burning, pertinent issue in every household. There is general disposition to charge this condition to the Payne-Aldrich tariff law, and the orators who seek to defend it are finding it extremely difficult to explain the disastrously high and constantly increasing cost of living.

Evasion of the problem is equally as hopeless as attempted explanation, and the poor defender of the faith finds himself between Scylla and Charibdis. Wreck and disaster confront him no matter how he steers and there is no retreat.

Ohio is a republican state. Democratic victories have almost invariably come out of republican dissension. There is apparent sufficient discord in the ranks of the President's party to Ohio to warrant the belief that the contest will not only be very interesting, but that the result may be very close.—Cincinnati Enquirer.

Deafness Can't be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out of this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous lining of the Eustachian Tube.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that we cannot cure by taking Hall's Catarrh Cure. Send for circulars, free.

F. J. OHENNEY & CO., Toledo, O.
Solely Sold by Druggists, Etc.
Take Hall's Family Pills for constipation.

Women cry over their own troubles, not yours; and yet a woman who cries a good deal is called "sympathetic."

Tickling in the Throat.

"Just a little tickling in the throat!" Is that what troubles you? But it hangs on! Can't get rid of it! Home remedies don't take hold. You need something stronger—regular medicine, a doctor's medicine. Ayer's Cherry Pectoral contains healing, quieting, and soothing properties of the highest order. Ask your doctor about it. No alcohol in this cough medicine. J. C. Ayer & Co., Lowell, Mass.

Constipation positively prevents good health. Then why allow it to continue? Ayer's is a great preventive of disease. Ayer's Pills are liver pills. What does your doctor say?

Telegraphic Briefs

The annual meeting of the National League of Postmasters of the United States began at Chattanooga, Tenn., today and will continue for three days.

Seniors at Barnard college, New York, by sacrificing luxuries and donating part of their allowances, have enabled Margaret Hogan, a blind student, to secure her degree.

In the arrest at Benwood, W. Va., of two men giving the names of Charles Lorri and Levene Geneva, the police believe they have captured the principal leaders of the black hand society. The two are charged with the murder of Antonio Cassella.

Commander Robert E. Peary, the Arctic explorer, will be promoted to the rank of captain in the corps of naval civil engineers on October 20 as the result of the retirement of Capt. U. S. G. White, on account of age.

The tobacco cases under the Sherman anti-trust act were reassigned for argument on January 3 by the United States supreme court at the request of the government. The Standard Oil case, set for reargument on November 14, and the corporation tax cases also were set for rehearing January 3.

Atlantic City, N. J., Oct. 12.—The dirigible America's attempt to cross the Atlantic may be made this morning. Two thousand people gathered late yesterday afternoon at the Hanger inlet, where the gas bag has been for the last two months, on the strength of a report from the weather service at Washington that favorable conditions might be expected at sundown and that at least a trial flight would be made. The high wind that prevailed all day long did fall at that time, but the America remained within her shed. The chief engineer of the craft declared that an hour of calm was all that was desired for the launching of the balloon, but as dusk deepened the wind freshened, and the spectators went their way.

Atlantic City, N. J., Oct. 12.—The dirigible America's attempt to cross the Atlantic may be made this morning. Two thousand people gathered late yesterday afternoon at the Hanger inlet, where the gas bag has been for the last two months, on the strength of a report from the weather service at Washington that favorable conditions might be expected at sundown and that at least a trial flight would be made. The high wind that prevailed all day long did fall at that time, but the America remained within her shed. The chief engineer of the craft declared that an hour of calm was all that was desired for the launching of the balloon, but as dusk deepened the wind freshened, and the spectators went their way.
